Bushings

-Berea A bushings are for the A Mandrel (.247"), B bushings are for the B mandrel (.291").

-Hut bushings use the corresponding 7mm mandrel or Americlassic mandrel (.291").

-Rockler bushings use the corresponding 7mm mandrel or 10mm mandrel (.291").

-Woodcraft bushings use 7mm mandrel only

Drill Bits- Woodcraft, Hut, Rockler sometimes call for a slightly different drill bit size

Kits- Those marked with 1 are available at Woodcraft, 2 at Hut, 3 at Rockler. Kits may have different names.
