

BUILD YOUR OWN CORKSCREW

This kit contains all components to allow you to complete and personalize your very own corkscrew. The wood scales can be used "as is" or you may use them as a template to craft your own wood or acrylic scales and insert with the hardware contained with the corkscrew kit. The two(2) wood scales can be engraved and thereby personalize the corkscrew to suit your requirements. The wood scales are securely fastened with the use a machine screw (post) and a cap nut. Simply insert the machine screw through the pre-drilled holes and tighten the nut with the enclosed hex key. Be creative and use left over small pieces of wood/acrylic to achieve a truly custom one of a kind corkscrew.
