

- NOTES:
1. All joists, rafters, trusses, beam sizes, and design must be verified for compliance with local codes and building conditions by an engineer prior to beginning construction.
 2. Verify window sizes with window manufacturer for compliance with ingress/egress requirements.
 3. Provide proper flashing as required.
 4. All measurements should be verified by the builder on job site.
 5. Square Footages are approximate only, and may vary with actual construction.
 6. Construction materials and methods must be in compliance with seismic, Wind loading, and Climatic Zone requirements.
