

Didn't see just the pen you wanted? I do custom work. Contact me and we can design a pen to suit your needs. You pick the pen style: roller ball, fountain, ball point or even a pencil. Pick your material: local woods like Maple, Ash, Juniper or exotics like Bubinga, Cocobolo or Olive Wood harvested in Bethlehem. Maybe you'd like a colorful acrylic, or maybe a Turquoise or Malachite Truestone. Then you can match it to a finish: Gold, Chrome, Sterling Silver, Platinum or Black Titanium. Inlays of various materials or laser engraving are also available. The possibilities are limited only by our imaginations... Mr. Vic
