---

## Compiled from an IAP Poll initially posted on April 11, 2021

**Many members ask the simple question, which kits do members prefer to turn?**

*Here are some things you might consider or ask others for their preferences.*

- This Poll is not meant to encourage you to turn what others turn but,
- What are the kits our members like to turn?
- Was it chosen because they are a beginner?
- As ones turning experience improves, the kit choices will also change.
- Are the kits determined by personal preference?
- Are the kits determined by what one sells best?
- Are the kits chosen based on what your friends like, gifting?
- Are the kits chosen based on a requirement?
- Are the kits chosen based on price?
- Possibly, the kits chosen are based on comfort level.
- Possibly, the kits chosen by someone based on wanting to challenge themselves.
- It may be that the kit is outstanding?
- Maybe they just want to impress others of their talent?
- Kits are often chosen based on that special blank.
